A.3 Inconsistency between documents

If there is any inconsistency between the plans and documentation referred to above, the most recent document shall prevail to the extent of the inconsistency. However, conditions of this approval prevail to the extent of any inconsistency.

A.4 Lapsing of consent

This development consent will lapse five years from the date of consent, unless the building, engineering or construction work relating to the development is physically commenced on the land to which this consent applies before the date on which the consent would otherwise lapse.

A.5 Prescribed conditions

All works shall comply with the prescribed conditions of development consent as set out in Part 6, Division 8A of the Regulation. In particular, your attention is drawn to:

- (a) clause 98, Compliance with Building Code of Australia; and
- (b) clause 98A Erection of signs during building and demolition works.

A.6 Australian standards

All works shall be carried out in accordance with current Australian Standards.

A.7 Legal notices

Any advice or notice to the consent authority shall be served on the Secretary.

PART B – PRIOR TO THE ISSUE OF A CONSTRUCTION CERTIFICATE / COMMENCEMENT OF WORKS

B.1 Construction certificate

Prior to the commencement of any work (including demolition, excavation, clearing, construction, subdivision or associated activities), a construction certificate for the development must be obtained.

B.2 Notification to Department of the date of commencement of works

Both the PCA and the Secretary or nominee shall be given written notice, at least 2 days prior to works commencing on site, of the date that works are proposed to commence.

B.3 Documentation for the construction certificate

Prior to the issue of the construction certificate, the following information shall be submitted to, and be to the satisfaction of the Department (where the Department is the certifying authority):

- (a) Structural drawings and design statement - prepared and signed by an appropriately qualified practising Structural Engineer that comply with:
 - (i) the BCA; and
 - (ii) the development consent DA 6879.
- (b) Compliance with the BCA - sufficient details to demonstrate that the proposal complies with the relevant provisions of the BCA.

B.4 Temporary fencing/hoarding

Prior to works commencing, the construction works area shall be fenced with temporary fencing. This fencing is to clearly delineate the construction area and shall keep the disturbance area to a minimum. This is to restrict access and also prevent unauthorised persons entering the work area.

PART C – DURING CONSTRUCTION

C.1 Approved plans and documentation to be on-site

A copy of the approved plans and documentation shall be kept on site at all times and shall be readily available for perusal by the PCA, any person associated with construction works, or an officer of the Department.

C.2 Construction hours

All work in connection with the proposed development shall be carried out between the hours of 7.00am and 6.00pm on Monday to Friday inclusive, and 7:00am to 1.00pm on Saturdays, with no work allowed on Sunday or Public Holidays, or as otherwise approved by the Secretary or nominee.

C.3 Construction period

- (a) All construction activities are limited to the “summer” period. For this development this period means commencing after the October long weekend and ceases no later than 31 May or as otherwise approved by the Secretary or nominee.
- (b) By 31 May the applicant shall ensure that the site is made safe and secure by undertaking the following:
 - (i) removal of all waste materials;
 - (ii) removal and/or securing of all stockpiles of soil and gravel;
 - (iii) demolition and construction materials are removed from around the building and are stored within the building or contained within designated areas;
 - (iv) the subject site is fenced with para-webbing or other suitable visible protection fencing around the perimeter of the site to limit access to and from the site;
 - (v) appropriate signage shall be erected outlining that unauthorised access to the site is prohibited and that the site is a construction zone;
 - (vi) any external scaffolding shall be dismantled and removed from the site;
 - (vii) all external plumbing and drainage works are to be completed;
 - (viii) all disturbed ground is stabilised and made erosion resistant;
 - (ix) any excavations are made safe and secure; and
 - (x) any other specific matters related to making the site safe and secure raised by the PCA or the Secretary or nominee.

C.4 Work Cover

All works shall be carried out in accordance with current Work Cover guidelines.

C.5 Site notice

A site notice(s) shall be prominently displayed at the boundaries of the site for the purposes of informing the public of project details. The notice(s) is to satisfy all but not be limited to, the following requirements:

- (a) The notice is to be durable and weatherproof and is to be displayed throughout the works period.
- (b) The approved hours of work, the name of the principal contractor for the work (if any), and 24 hour contact phone number for any inquiries, including construction/noise complaint are to be displayed on the site notice.
- (c) The notice(s) is to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted.
- (d) The name, address and phone number of the PCA is to be identified on the site signage.

C.6 Storage of materials

The applicant shall ensure that at all times during the construction period that no storage or disposal of materials shall take place beneath the canopy of any trees or on native heath vegetation.

C.7 Prohibition of hazardous materials

Hazardous or toxic materials or dangerous goods shall not be stored or processed on any site at any time.

C.8 Noise and vibration management

Excavation and construction shall be managed in accordance with AS 2436 *Guide to noise and vibration control on construction, demolition and maintenance sites* and to ensure that there is not an adverse impact for any neighbouring/affected tourist accommodation buildings during the construction period.

C.9 Litter and building waste

Building waste shall be minimised and shall be contained in receptacles so as not to escape by wind or water. These receptacles must only be located in previously disturbed areas and not beneath the canopy or over roots of any trees. The receptacle must be cleaned regularly.

C.10 Electrical works

All electrical works shall be carried out by a qualified and licensed Electrical contractor and installed in accordance with the relevant Australian Standards.

C.11 Demolitions work

Any demolition work shall comply with the provisions of AS 2601-1991 Demolition of Structures.

PART D – PRIOR TO COMMENCEMENT OF USE

D.1 Occupation certificate

Prior to the occupation of the building or the commencement of use, an occupation certificate must be obtained from the PCA. A copy of the occupation certificate must be furnished to the Secretary or nominee prior to the occupation of the building or commencement of the use.

D.2 Site clean up

Prior to commencement of use, the subject site shall be cleaned up to the satisfaction of the PCA.

D.3 Removal of site notice

Any site notices or other site information signs shall be removed upon completion of the site works and prior to the commencement of use.

D.4 Fire safety certificate

Prior to the issue of any occupation certificate, a fire safety certificate conforming to the Regulations shall be submitted to and be to the satisfaction of the PCA. A copy of the fire safety certificate shall be submitted to the Department with the copy of the occupation certificate.

D.5 Structural certification

A structural engineer's certificate must be submitted to the satisfaction of the Department (where the Department is the certifying authority) prior to issue of any occupation certificate. This certificate is to verify that structural works have been completed in accordance with approved plans and specifications and comply with the provisions of the BCA and relevant standards.

PART E - POST OCCUPATION

E.1 Annual Fire Safety Statement

An annual fire safety statement conforming to the Regulations shall be provided to the Department and the NSW Fire Brigade every 12 months commencing within 12 months after the date on which the Department received the initial Fire Safety Certificate (condition D.4).

ADVISORY NOTES

AN.1 Responsibility for other consents / agreements

The Applicant is solely responsible for ensuring that all additional consents and agreements are obtained from other authorities, as relevant.

AN.2 Premises Standard

The persons responsible for ensuring compliance with the Premises Standard (Access to Premises – Buildings) are the building certifier, building developer, and building manager. The Standard's applicability should be reasonably investigated by these persons.
