

# Development consent

## Section 80 of the *Environmental Planning and Assessment Act 1979*

As delegate of the Minister for Planning, I grant development consent to the development application referred to in Schedule 1, subject to the conditions in Schedule 2.

These conditions are required to:

- prevent, minimise, and/or offset adverse environmental impacts including economic and social impacts;
- set standards and performance measures for acceptable environmental performance;
- require regular monitoring and reporting; and
- provide for the ongoing environmental management of the development.

Daniel James  
**Team Leader**

### SCHEDULE 1

|                              |   |
|------------------------------|---|
| <b>Application No.:</b>      | DA No. 8866   |
| <b>Applicant:</b>            | Catalyst ONE Pty Ltd  |
| <b>Consent Authority:</b>    | Minister for Planning   |
| <b>Land:</b>                 | Bullocks Flat Skitube Terminal Building, Perisher Range Alpine Resort, Kosciuszko National Park   |
| <b>Type of Development:</b>  | General Development   |
| <b>Approved Development:</b> | Works within Bullocks Flat Skitube Terminal Building including the installation of in-building telecommunication facilities, external air conditioning unit and associated ancillary equipment and works. |

## DEFINITIONS

|   |   |
|---|---|
| Act   | means the <i>Environmental Planning and Assessment Act, 1979</i> (as amended).  |
| Applicant                                       | means Catalyst ONE Pty Ltd.   |
| Approval Body                                   | has the same meaning as within Division 5 of Part 4 of the Act.   |
| BCA   | means the edition of the Building Code of Australia in force at the time of lodgement of an application for a Construction Certificate.   |
| Certifying Authority                            | has the same meaning as Part 4A of the Act.   |
| DA No 8866                                      | means the development application and supporting documentation submitted by the applicant on 30 October 2017.   |
| Department                                      | means the Department of Planning and Environment, or its successors.  |
| Director  | means the Director of Key Sites Assessments or a delegate of the Director within the Department.  |
| Minister  | means the Minister for Planning, or nominee.  |
| OEH   | means the NSW Office of Environment and Heritage, or its successors.  |
| PCA   | means the principal certifying authority and has the same meaning as Part 4A of the Act.  |
| Regulation                                      | means the <i>Environmental Planning and Assessment Regulations, 2000</i> (as amended).  |
| Secretary                                       | means the Secretary of the Department, or nominee/delegate.   |
| Secretary's approval, agreement or satisfaction | means a written approval from the Secretary or nominee/delegate.  |
| Subject site                                    | has the same meaning as the land identified in Part A of this schedule.   |
| Team Leader                                     | means the Team Leader of the Alpine Resorts Team within the Key Sites Assessments division (or its successors) or a delegate of the Team Leader of the Alpine Resorts Team within the Department. |

## SCHEDULE 2

### PART A – ADMINISTRATIVE CONDITIONS

#### A.1 Obligation to minimise harm to environment

In addition to meeting the specific performance criteria established under this consent, the Applicant shall implement all reasonable and feasible measures to prevent and/or minimise any harm to the environment that may result from the construction or operation of the development.

#### A.2 Development in accordance with approved documentation and plans

The development shall be in accordance with the Development Application No. DA 8866 submitted by Catalyst ONE Pty Ltd on 30 October 2017 and in accordance with the supporting documentation submitted with that application including, but not limited to, the following:

| Ref No. | Document                                 | Title/Description  | Author/Prepared by     | Date            | Document Reference |
|---------|--|--|------------------------|-----------------|--------------------|
| 1       | Statement of Environmental Effects (SEE) | Proposed In-Building Coverage Facility:<br><br>Bullocks Flat Terminal,<br>Kosciuszko National Park,<br>NSW, 2627 | Catalyst ONE Pty Ltd   | October 2017    | -                  |

### **A.3 Inconsistency between documents**

If there is any inconsistency between the plans and documentation referred to above, the most recent document shall prevail to the extent of the inconsistency. However, conditions of this approval prevail to the extent of any inconsistency.

### **A.4 Lapsing of consent**

This development consent will lapse five years from the date of consent, unless the building, engineering or construction work relating to the development is physically commenced on the land to which this consent applies before the date on which the consent would otherwise lapse.

### **A.5 Prescribed conditions**

All works shall comply with the prescribed conditions of development consent as set out in Part 6, Division 8A of the Regulation. In particular, your attention is drawn to:

- (a) clause 98, Compliance with Building Code of Australia; and

(b) clause 98A, Erection of signs during building and demolition works.

#### **A.6 Australian standards**

All works shall be carried out in accordance with current Australian Standards.

#### **A.7 Legal notices**

Any advice or notice to the consent authority shall be served on the Secretary.

---

### **PART B – PRIOR TO THE ISSUE OF A CONSTRUCTION CERTIFICATE**

#### **B.1 Construction certificate**

Works must not commence until a relevant construction certificate has been issued.

#### **B.2 Documentation for the construction certificate**

Prior to the issue of the construction certificate, the following information shall be submitted to, and be to the satisfaction of the certifying authority:

- (a) Drawings and specification that demonstrate compliance with:
  - (i) the BCA;
  - (ii) the development consent DA 8866;
  - (iii) current and relevant Australian Standards.
- (b) Compliance with the BCA - sufficient details to demonstrate that the proposal complies with the relevant provisions of the BCA, including specification of cabling route and method of meeting BCA Volume One Performance Requirement CP8.

#### **B.3 Payment of the Long Service Levy**

Prior to the issue of any construction certificate, evidence shall be provided to the certifying authority, in the form of a receipt, confirming payment of the Long Service Levy to the Long Service Payments Corporation in accordance with Section 34 of the *Building Construction Industry Payments Act 1986*.

---

### **PART C – PRIOR TO THE COMMENCEMENT OF WORKS**

#### **C.1 Notification to Department of the date of commencement of works**

Both the PCA and the Secretary or nominee shall be given written notice, at least 2 days prior to works commencing on site, of the date that works are proposed to commence.

#### **C.2 Implementation of site environmental management measures**

Prior to any construction works commencing, all site environmental management measures in accordance with the approved documentation (Condition A.2) and these conditions of consent, shall be in place and in good working order, excluding any obstruction in the fire stairs.

## **PART D – DURING CONSTRUCTION**

### **D.1 Approved plans and documentation to be on-site**

A copy of the approved plans and documentation shall be kept on site at all times and shall be readily available for perusal by the PCA, any person associated with construction works, or an officer of the Department.

### **D.2 Construction hours**

All work in connection with the proposed development shall be carried out between the hours of 7.00am and 6.00pm on Monday to Friday inclusive, and 7:00am to 1.00pm on Saturdays, with no work allowed on Sunday or Public Holidays, or as otherwise approved by the Secretary or nominee.

### **D.3 Construction period**

- (a) All construction activities are limited to the “summer” period. For this development this period means commencing after the October long weekend and ceases no later than 31 May or as otherwise approved by the Secretary or nominee.
- (b) By 31 May the applicant shall ensure that the site is made safe and secure by undertaking the following:
  - (i) removal of all waste materials;
  - (ii) removal and/or securing of all stockpiles of soil and gravel;
  - (iii) demolition and construction materials are removed from around the building and are stored within the building or contained within designated areas;
  - (iv) the subject site is fenced with para-webbing or other suitable visible protection fencing around the perimeter of the site to limit access to and from the site;
  - (v) appropriate signage shall be erected outlining that unauthorised access to the site is prohibited and that the site is a construction zone;
  - (vi) any external scaffolding shall be dismantled and removed from the site;
  - (vii) all external plumbing and drainage works are to be completed;
  - (viii) all disturbed ground is stabilised and made erosion resistant;
  - (ix) any excavations are made safe and secure; and
  - (x) any other specific matters related to making the site safe and secure raised by the PCA or the Secretary or nominee.

### **D.4 Construction activities**

- (a) At all times, construction activities shall be undertaken in accordance with the approved documentation.
- (b) All construction activities shall be confined to within the construction zone.
- (c) No disturbance is permitted outside the construction zone unless otherwise agreed by the Secretary or nominee.

### **D.5 Work Cover**

All works shall be carried out in accordance with current Work Cover guidelines.

### **D.6 Site notice**

A site notice(s) shall be prominently displayed at the boundaries of the site for the purposes of informing the public of project details. The notice(s) is to satisfy all but not be limited to, the following requirements:

- (a) The notice is to be durable and weatherproof and is to be displayed throughout the works period.
- (b) The approved hours of work, the name of the principal contractor for the work (if any), and 24 hour contact phone number for any inquiries, including construction/noise complaint are to be displayed on the site notice.

- (c) The notice(s) is to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted.
- (d) The name, address and phone number of the PCA is to be identified on the site signage.

#### **D.7 Storage of materials**

The applicant shall ensure that at all times during the construction period that no storage or disposal of materials shall take place beneath the canopy of any trees or on native heath vegetation.

#### **D.8 Prohibition of hazardous materials**

Hazardous or toxic materials or dangerous goods shall not be stored or processed on any site at any time.

#### **D.9 Noise and vibration management**

Excavation and construction shall be managed in accordance with AS 2436 *Guide to noise and vibration control on construction, demolition and maintenance sites* and to ensure that there is not an adverse impact for any neighbouring/affected tourist accommodation buildings during the construction period.

#### **D.10 Litter and building waste**

Building waste shall be minimised and shall be contained in receptacles so as not to escape by wind or water. These receptacles must only be located in previously disturbed areas and not beneath the canopy or over roots of any trees. The receptacle must be cleaned regularly.

#### **D.11 Demolitions work**

Any demolition work shall comply with the provisions of AS 2601-1991 Demolition of Structures.

#### **D.12 Recycled Material**

Wherever possible, building material should be salvaged for reuse during the redevelopment of the building or sent to a recycling facility to reduce landfill.

#### **D.13 Loading and unloading of construction vehicles**

All loading and unloading associated with demolition and construction shall be restricted to those areas approved conditions.

#### **D.14 Electrical works**

All electrical works shall be carried out by a qualified and licensed electrical contractor and installed in accordance with the relevant Australian Standards

#### **D.15 Scaffolding**

All scaffolding is to be located within the lot boundaries and shall comply with AS/NZS 1576 Scaffolding and AS/NZS 4576 'Guidelines for Scaffolding'.

#### **D.16 Asbestos**

- (a) The removal of any asbestos or other hazardous material found on the site shall be carried out in accordance with current Work Cover guidelines by an appropriately qualified contractor.
- (b) Any asbestos or other hazardous materials shall be disposed of at an authorised waste facility. Receipts shall be provided to the PCA as evidence of appropriate disposal.

## **PART E – PRIOR TO COMMENCEMENT OF USE**

### **E.1 Occupation certificate**

Prior to the occupation of the building or the commencement of use, an occupation certificate must be obtained from the PCA. A copy of the occupation certificate must be furnished to the Secretary or nominee prior to the occupation of the building or commencement of the use.

### **E.2 Site Clean Up**

Prior to commencement of use, the subject site shall be cleaned up to the satisfaction of the PCA.

### **E.3 Removal of site notice**

Any site notices or other site information signs shall be removed upon completion of the site works and prior to the commencement of use.

### **E.4 Certification of cabling and building fire rated elements**

A cabling installation certificate shall be submitted to the PCA prior to the issue of any occupation certificate. The certificate is to verify that the cabling works have been completed in accordance with the approved plans and specifications and comply with the provisions of the BCA and relevant standards. A copy of the certificate is to be submitted to the Secretary with the Occupation Certificate documentation.

### **E.5 Electrical certification**

Prior to the issue of any occupation certificate, certification prepared and signed by an appropriately qualified electrician shall be submitted to the PCA. The certificate shall indicate that all electrical works have been installed by a qualified and licensed electrician and installed in accordance with the relevant Australian Standards.

### **E.6 Fire safety certificate**

Prior to the issue of any occupation certificate, a fire safety certificate conforming to the Regulations shall be submitted to and be to the satisfaction of the PCA. A copy of the fire safety certificate shall be submitted to the Department with the copy of the occupation certificate.

---

## **PART F – POST OCCUPATION**

### **F.1 Annual fire safety statement**

An annual fire safety statement conforming to the Regulations shall be provided to the Department and the NSW Fire Brigade every 12 months commencing within 12 months after the date on which the Department received the initial Fire Safety Certificate.

## ADVISORY NOTES

### **AN.1 Responsibility for other consents / agreements**

The Applicant is solely responsible for ensuring that all additional consents and agreements are obtained from other authorities, as relevant.

### **AN.2 Premises Standard**

The persons responsible for ensuring compliance with the Premises Standard (Access to Premises – Buildings) are the building certifier, building developer, and building manager. The Standard's applicability should be reasonably investigated by these persons.

RECOMMENDED
