

WINDARRA LEASE AREA IPA APZ

Prune Canopy or remove trees so not within 2-5m of the building.
Prune all tree limbs in APZ up to 2m above

Native trees to be retained as a clumps/ island

Legend

APZ & Lease area

Native Vegetation Island

APZ Composition (within purple boundary)

- Maximum 15% of the APZ as canopy (trees at maturity)
- Maximum 10% of the APZ as understory (heath)
- Remainder APZ to have vegetation managed to a height of 100mm

- ** No shrubs beneath trees.
- ** Where APZ management works leads to bare ground then this area must be planted with native Poa and be maintained until an erosion resistant state is achieved.

APZ Management

- Removal of fine fuels.
- Regular maintenance of grass – to less than 100mm in height.
- Tree canopy should not overhang the building.
- Prune or remove trees so there is not a continuous tree canopy from hazard to asset. Separate tree crowns by 2-5 metres.
- Prune lower branches from trees up to 2m above ground.
- Native trees and shrubs can be retained as clumps or islands.
- Vegetation should not touch the building.
- Removal of weeds and more flammable species first.
- Remove saplings as they grow.

Native tree island to be retained

Plan Name: APZ Management Plan
Plan date: 19/11/2020
Who drew the plan: A. Wilkinson

Site address: Windarra Ski Lodge
Plumb Pine Rd
Smiggin Holes

Other notes: Not to scale
This Plan is for an Inner Protection Area (IPA) Asset Protection Zone (APZ).
